

WEALTH IN SWAMPS.
A Million Acres in Indiana That May Be Made Dry.
INDIANAPOLIS, March 15.—Agents for a number of Chicago people who have tracts of marsh land on the Kankakee in this state have been quietly making an attempt to raise a fund of \$500,000 for the purpose of draining the Kankakee swamps and making over 400,000 acres now under water almost the year round available for cultivation. Altogether not less than 1,000,000 acres will be benefited. The improvement of the great Momencie creek in the Kankakee river, for which work the Indiana legislature appropriated \$85,000, has produced such beneficial results that the marsh land owners are more than ever enthusiastic over their scheme to redeem that great stretch of country in northern Indiana. The state land office there has no correct record of how much land there is which can be brought into cultivation. A Chicago man owns 50,000 acres of this land, another at Crown Point has 25,000 acres and other persons and estates own tracts of from 1,000 to 40,000 acres. These large land owners are the most interested in recovering the land. To do the work would require, according to the estimate, \$500,000.

EPIDEMIC OF DISEASES.
The Southern Section of Indiana Seriously Afflicted Just Now.
MOORE'S HILL, Ind., March 15.—The record of medicine for many years will not show a more generally spread epidemic of disease than that which now is common through the southeast section of Indiana. The doctor's lot here is by no means a happy one. In towns and hamlets, and through the whole country, physicians are kept busy night and day. This state of things has been prevailing since February at least, and the condition of things does not seem to improve. One common form of affliction is a fever which attacks the glands of the body, and which is attended with erysipelas. Physicians begin to agree that the disease is contagious. Beyond this point they do not agree. One physician attributes the disease to a peculiar condition of the air. He claims that after a strong wind there is an abatement in the ill that afflict many people in this section.

VOTED AGAINST A REDUCTION.
Railroad Employees Will Not Stand a Cut of Ten Per Cent in Wages.
TERRE HAUTE, Ind., March 15.—For several weeks the trainmen on the Chicago and Eastern Illinois railroad have been voting on the company's proposition that they should accept a 10 per cent cut in wages. The votes are now all in, and by an overwhelming majority the engineers, firemen and trainmen refuse to accede to the proposed reduction in wages. Among the reasons given the company for this refusal, is the fact that the Chicago and Eastern Illinois railway has not suffered by the hard times, being able to declare its regular quarterly dividend of 1 1/4 per cent. The men believe the whole matter will now be dropped by the company.

Farmer Burned to Death.
TORONTO, O., March 15.—James Watt, an aged and prominent farmer, living just west of this place, has been found dead and horribly burned in the embers of a brush heap fire. He left home last Saturday to visit a son residing a few miles distant. It is supposed that he stopped to throw brush on the fire, was stricken with paralysis and fell into the flames.

A Pleasant Man to Interview.
Professor Felix Adler, the founder of the Ethical Culture society, is a most pleasant gentleman to interview. He says that he has found the newspaper man to be honorable in the highest degree, and that he has never found it necessary to indicate what part of his conversation is intended for publication and what part is to be considered as purely personal. This of course means that Professor Adler does not limit himself in an interview to the matter directly in hand. He is not unwilling to speak of things that are entirely too personal for publication and will give an elaborate discourse on metaphysics to his interviewer and not express the least shade of doubt as to its being correctly put down.—Chicago Post.

Both parties are prominent and the affair caused great excitement.

Wire Tappers Arrested.
CHICAGO, March 15.—Detectives have arrested a gang of men who had all arrangements to tap the wires running to the track of the Roby association and secured a valuable outfit together with the cipher. Had the scheme been put in operation the tappers would have reaped a rich reward, as they had arranged so as to work outside races as well.

PITTSBURG, March 15.—The Brotherhood of Carpenters and Joiners will inaugurate an eight-hour movement in Pittsburg just as soon as the opportunity presents itself.
